President Harris
1600 Pennsylvania Avenue NW
Washington, DC 20500

Dear President Harris,

If you want to secure the Presidency, I advise you to start acting now as the President of the United States. This means that you cannot afford to let President Biden take you down with him in his dual defeat by Trump and Netanyahu.

The Israeli Prime Minister is a bully. Fareed Zakaria said once that Netanyahu outsmarted President Biden. This was only the tip of the iceberg. Biden counted on Netanyahu to negotiate the release of the hostages. He did not know that bullies don't negotiate; they demand. It is true that there is a very long tradition according to which the Israeli David has always outsmarted the America Goliath. It has managed to control the American giant in the name of the holocaust. America fell for the fallacy that any criticism of Israel is anti-Semitism. If you are not prepared to expose this myth, you will have a hard time exposing the myths of another bully called Trump.

America should recognize Israel's right to exist, not its right to oppress the Palestinian people. Mother Nature says that abused people tend to become abusers when they become powerful. This can explain what Israel has been doing; it does not justify it. The time has come to free America from her misguided beliefs.

To challenge now the Israeli myth that is believed by most Americans will sound as a political suicide. It is up to you to transform it into a powerful stunt. Here is what I suggest.

Explain to President Biden that, in order to win the election, you need to dismantle the alliance of our two bullies, Trump and Netanyahu. Netanyahu must be eliminated first, and this must be done right now. He has been blackmailing President Biden and ignoring his calls for a negotiated ending of the war. President Biden counted on Netanyahu to negotiate the release of the hostages. This was a big mistake. America must free herself from her abject subordination to Israel. Being true to a friend is one thing. Being stupid is another thing.

It is not too late to correct that mistake. Work with President Biden and take together a bold initiative. Make it clear to the Palestinian people that, under your dual leadership, America is ready to work for the creation of an independent and viable Palestinian state that will live peacefully with Israel. In return, ask the Palestinian people to free the hostages immediately. A joint declaration of this kind will marginalize Netanyahu and impose an end to the war. This will be for President Biden a good way to make a national and international come back, and for you to eliminate the first bully.

To expose the myths that Trump is propagating will be an easy task. In other words, I do not see any need for campaigning the traditional way. You can eliminate Trump as you would have eliminated Netanyahu by marginalizing him as a deranged man.

Sincerely yours,
