Dear Congresswoman Tlaib,

You have been doing a great job despite the very unpleasant environment.

America has always been under the powerful influence of Israel. The Israeli David was smart enough to control the American Goliath. But things are just changing now. America has started to wake up from her deep slumber. There is still a lot to be done. We should not underestimate the power of the myths, Biblical or just cultural, that control the American mind.

I am sending you a picture that illustrates the American past. I am sure an artist can do much better than me. But what counts here is the idea.

You were able to send a clear message to President Biden, but he did not get it. He has a good heart but a closed mind. Therefore, you cannot reason with him. This is why I have decided that we should impeach him.

Sincerely yours,

Joseph Codsí
